17. (Amended) A method for treatment of warm-blooded animals, including humans, in which an antitumourally effective dose of a compound of the formula I according to claim 1 or of a pharmaceutically acceptable salt of such a compound is administered to such a warm-blooded animal suffering from a tumour disease.

18. (Amended) A method for treatment of warm-blooded animals, including humans, in which a dose, which is effective against osteoporosis, of a compound of the formula I according to claim 1 or of a pharmaceutically acceptable salt of such a compound is administered to such a warm-blooded animal suffering from osteoporosis.

REMARKS

Claims 12-18 have been amended to eliminate multiple dependency. Favorable consideration of this application is respectfully requested.

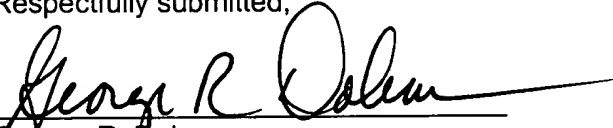

Attached hereto is a marked-up version of the changes made to the claims by the current amendment. The attached pages are captioned "VERSIONS WITH MARKINGS TO SHOW CHANGES MADE."

VERSION WITH MARKINGS TO SHOW CHANGES MADE

In the Claims:

Claims 12, 14, 17 and 18 have been amended as follows:

12. A compound of the formula I according to ~~any one of claims 1-11~~ claim 1 or a pharmaceutically acceptable salt of such a compound for use in a method for therapeutic treatment of the human or animal body.

14. A pharmaceutical composition for treatment of tumours in warm-blooded animals, including humans, comprising an antitumourally effective dose of a compound of the formula I according to ~~any one of claims 1-11~~ claim 1 or a pharmaceutically acceptable salt of such a compound together with a pharmaceutical carrier.

17. A method for treatment of warm-blooded animals, including humans, in which an antitumourally effective dose of a compound of the formula I according to ~~any one of claims 1-11~~ claim 1 or of a pharmaceutically acceptable salt of such a compound is administered to such a warm-blooded animal suffering from a tumour disease.

18. A method for treatment of warm-blooded animals, including humans, in which a dose, which is effective against osteoporosis, of a compound of the formula I according to ~~any one of claims 1-11~~ claim 1 or of a pharmaceutically acceptable salt of such a compound is administered to such a warm-blooded animal suffering from osteoporosis.
